EXPERIENCE

Graphura India Private Limited

Jun. 2026 – Present

Backend Developer (Internship)

Remote

- Developed **4 core backend features** for admin dashboard: CRUD operations for pricing plans, support ticket management, real-time notifications, and audit logging using **Node.js, Express, and MongoDB**
- Built **protected REST APIs** with role-based access control (admin auth) .
- Implemented **notification and audit-log** APIs to track admin actions and system events, improving traceability across dashboard operations.

PROJECTS

ZORO-AI-BOT | React 19, Node.js, Express, Socket.IO, Pinecone, Groq | [GitHub](#) | [Live](#)

2026

- Built a **full-stack real-time chat application** with **Retrieval-Augmented Generation (RAG)** , integrating **Tavily web search** using **Pinecone embeddings** and **Groq LLM** for context-aware AI responses
- Implemented **real-time bidirectional communication** using Socket.IO with server-side streaming and client-side event handling for instant message delivery
- Designed **JWT-based authentication**, role-based access control, email notifications via Nodemailer, and MongoDB schema for scalable data persistence
- Tech Stack: Frontend (React 19, Vite, Tailwind CSS, Framer Motion); Backend (Node.js, Express 5, Mongoose); AI (Groq SDK, Google GenAI, Pinecone Vector DB)

Link-Shorter | Node.js, Express, MongoDB, REST API | [GitHub](#) | [Live](#)

2026

- Developed a **RESTful API** for URL shortening service with custom short URL generation, redirect handling, and user authentication
- Implemented **analytics tracking** for click counts, referrer sources, and timestamps; secured endpoints with **JWT authentication** and role-based access
- Optimized database queries and indexed MongoDB collections for fast URL lookups and analytics aggregation

EDUCATION

Guru Gobind Singh Indraprastha University (GGSIPU)

Aug. 2024 – Aug. 2027

Bachelor of Computer Applications (BCA) – Computer Science | CGPA: 8.44

- Coursework:** Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming

Vidya Bharati School

Apr. 2019 – Apr. 2023

Senior Secondary (Class XII) – Commerce

SKILLS

Languages : JavaScript, TypeScript, Java

Backend & Frameworks : Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication

Frontend & Libraries : React 19, Next.js, Tailwind CSS, Framer Motion

Databases & Storage : MongoDB, PostgreSQL, Vector Databases (Pinecone)

AI: Retrieval-Augmented Generation (RAG), AI SDK

DevOps & Tools : Git, Docker, Vercel, Postman, VS Code

Core Concepts : CRUD Operations, Real-time Communication, Role-Based Access Control
